Across

3. straight line of large, heavy rocks that extend into the water; meant to keep control the water near the shore
5. long tube bent upwards so you can breathe without coming up to the surface of the water
7. structure that goes from the shore into the water; used for tying ships down so they don't drift away
8. long, narrow board that surfers stand on
9. worn to protect your eyes from the sun
11. pieces of wood washed on the shore in the ocean tides
12. structure made of packed wet sand

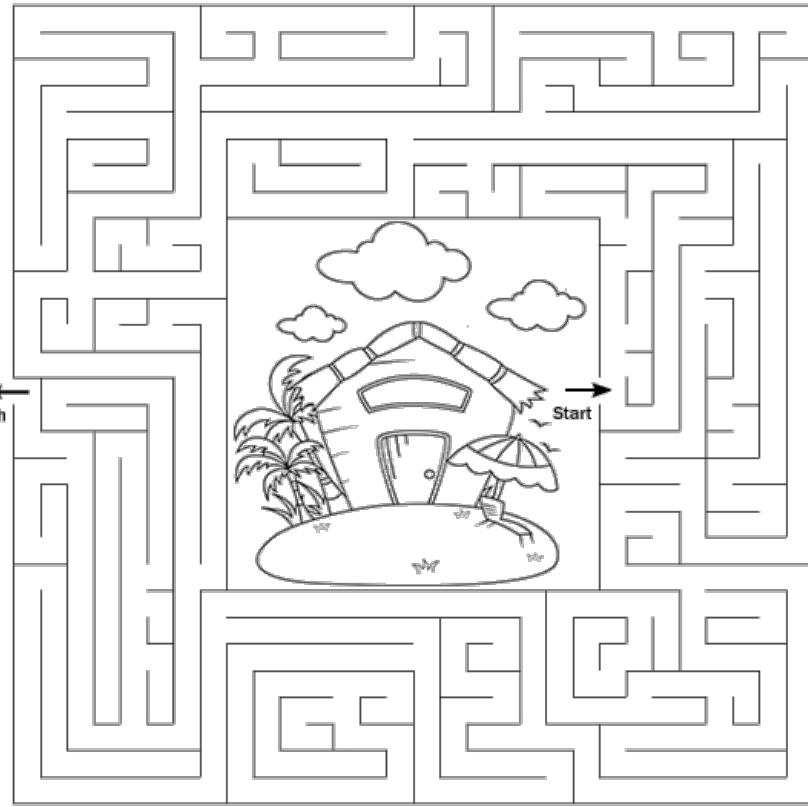

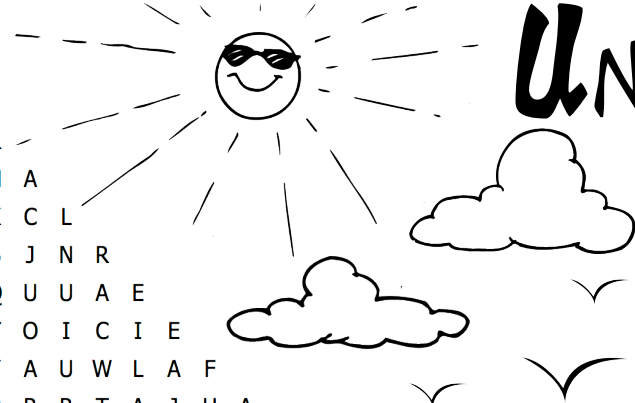

Down

1. vest made from an inflated material that helps you float
2. sandals with a strap between the big toe and the second toe
4. small pool of water left behind when the tide goes from high to low
5. cream or spray applied to the body to keep it from getting burned by the sun
6. tank of air to allow divers to swim deep under water for long periods of time
10. area where the sand meets the water
